JCPenney, North Aurora, IL

Customer Service Associate

2008 – 2010

My goal is to obtain a challenging design role where I can apply my 2+ years of web design experience to help shape a rapidly growing firm.

TECHNICAL SKILLS

Adobe Creative Cloud (Illustrator, Photoshop, InDesign, After Effects, Premiere Pro, Bridge, Acrobat Pro), MS Office, Keynote, Slack, Skype, Harvest, Trello, Sublime Text 2, CodeKit, HTML5, CSS3, OS X and Windows operating systems.

CREATIVE SKILLS

Provided modern and creative solutions for large-scale websites from wireframes through visual design to accomplish business requirements in a collaborative environment

Developed brands through logo creation and strategizing identity systems

Created extensible designs, user interface kits, and style-guides to be utilized by development teams and clients

Devised design and marketing strategies through industry research and competitor analysis

Worked closely with development team members to ensure implementation matched the design intent

Met with clients to guide conversations about business and design requirements

Conceptualized and designed various internal and outward-facing print / digital collateral including, but not limited to: business cards, flyers, brochures, packaging, banners, and presentations

LEADERSHIP SKILLS

Participated in brainstorming and project planning to shape the design direction and interactivity across all projects

Provided individual direction to Junior Designers to transform their strategy and UI/UX design work

Established a fundamental training program for onboarding new design hires that mitigated the transition into the company

Introduced standardized processes to refine workflow and new service offerings that helped streamline efficiency and provide greater value to the client

Facilitated individual and group critiques prior to deliverable dates to review usability and innovation

Worked with adjacent department team leaders to collaborate on ideas and implementations of procedures to improve performance between departments

Managed individual phase deadlines per project for a small team of designers to ensure timely delivery
